In addition, the Company plans to renew the said policy with the above details at the next renewal.

Item 4: Decision on Amounts and Details of Performance-linked and Share-based Remuneration Plan for Directors

1. Reasons for the proposal and reasons why the above remuneration is appropriate

The remuneration of the Company's Directors (excluding Non-Executive Directors and Directors Serving on the Audit and Supervisory Committee) consists of "basic remuneration as fixed remuneration," "performance-linked remuneration," and "restricted shares remuneration." However, having considered a remuneration plan suitable for further clarifying the linkage between the remuneration of Directors and the Company's performance and share value, and for raising Director awareness of contributing to the improvement of medium-to long-term performance and the enhancement of corporate value, we request the introduction, in place of "restricted shares remuneration," of a new performance-linked and share-based remuneration plan for the Company's Directors (excluding Non-Executive Directors, Directors Serving on the Audit and Supervisory Committee, and non-residents of Japan; hereinafter referred to as the "Eligible Directors") based on a share-based benefit trust, namely the "Board Incentive Plan Trust" (hereinafter referred to as the "Plan"). This is a proposal to provide share-based remuneration to Eligible Directors separately from the remuneration limit for Directors (excluding Directors Serving on the Audit and Supervisory Committee) of no more than 450 million yen per year, which was approved at the 68th Annual General Meeting of Shareholders held on June 25, 2020.

This proposal is intended to clarify the linkage between the remuneration of Eligible Directors and the Company's performance and share value, and to raise Director awareness of contributing to the improvement of medium-to long-term performance and the enhancement of corporate value by having Eligible Directors share with shareholders the returns and risks associated with fluctuations in the share price. We believe that the specifics of this proposal are appropriate.

Subject to approval and adoption of this proposal, the remuneration framework for "restricted shares remuneration," which was approved at the 68th Annual General Meeting of Shareholders held on June 25, 2020, will be abolished, and no new restricted shares will be granted thereafter.

If Proposal No. 1, "Appointment of Six (6) Directors (excluding Directors Serving on the Audit and Supervisory Committee)," is approved and adopted as originally proposed, the number of Eligible Directors subject to the Plan will be two (2).

2. Amounts and details, etc. of remuneration under the Plan

(1) Overview of the Plan

The Plan is a share-based remuneration plan covering fiscal years corresponding to the period of the Company's medium-term management plan (hereafter referred to as the "applicable period"; provided, however, that the initial applicable period will be the three fiscal years from the fiscal year ending March 31, 2027 to the fiscal year ending March 31, 2029), under which the trust will acquire shares of the Company using money contributed by the Company equivalent to the amount of remuneration for Eligible Directors, and shares of the Company, etc. will be delivered, etc. to Eligible Directors through the trust as appropriate for their positions and in accordance with such factors as the degree of achievements in performance. Under the Plan, benefits will be provided in two ways: "fixed share delivery points by position," under which shares of the Company, etc. will be delivered, etc. each fiscal year to Eligible Directors as appropriate for their positions, and "performance-linked share delivery points," under which shares of the

Company, etc. will be delivered, etc. after the end of the applicable period in accordance with the degree of achievements in performance under the medium-term management plan. (For more information, please refer to (2) and subsequent items below.)

i) Persons eligible to receive delivery, etc. of shares of the Company, etc. under this proposal	- The Company's Directors (excluding Non-Executive Directors, Directors Serving on the Audit and Supervisory Committee, and non-residents of Japan)
ii) Impact of the shares of the Company subject to this proposal on the total number of issued shares	
Upper limit of money contributed by the Company (as described in (3) below)	<ul style="list-style-type: none"> - An amount calculated by multiplying 40 million yen by the number of years in the applicable period - For the initial applicable period, 120 million yen for the three fiscal years (the three fiscal years from the fiscal year ending March 31, 2027 to the fiscal year ending March 31, 2029)
Upper limit on the number of shares of the Company, etc. to be delivered, etc. to Eligible Directors (as described in (4) below)	<ul style="list-style-type: none"> - A number of shares equivalent to the number of points calculated by multiplying 12,000 points by the number of years in the applicable period - For the initial applicable period, a number of shares equivalent to 36,000 points for the three fiscal years (the three fiscal years from the fiscal year ending March 31, 2027 to the fiscal year ending March 31, 2029) - One point will equal one common share of the Company. If the shares of the Company held in the Trust during the trust period are subject to a share split, consolidation of shares, or similar event, the number of shares of the Company per point will be adjusted to reflect the split ratio, consolidation ratio, etc. of the shares of the Company. - The ratio of the number of shares equivalent to the number of points per fiscal year above (12,000 shares) to the total number of issued shares of the Company (as of March 31, 2026, after deducting treasury shares) is approximately 0.06%
Means of obtaining shares of the Company (as described in (3) below)	- Shares of the Company under the Plan are scheduled to be acquired from the stock market or from the Company (through disposal of treasury shares)
iii) Method for calculating the number of shares of the Company, etc. to be acquired by Eligible Directors (as described in (4) below)	<ul style="list-style-type: none"> - Calculated separately for the fixed portion by position and the performance-linked portion - The performance-linked portion will vary within a range of 0% to 150% in accordance with such factors as the degree of achievements in performance under the medium-term management plan during the applicable period - For performance evaluation indicators in the initial applicable period, consolidated net sales, consolidated operating profit, and consolidated ROE, etc., will be used as financial indicators, and the engagement score and percentage of female managers, etc. will be used as non-financial indicators

iv) Timing of delivery, etc. of shares of the Company, etc. to Eligible Directors (as described in (5) below)	Fixed portion by position	<ul style="list-style-type: none"> - A number of the Company's shares corresponding to a set ratio of points shall be delivered from the trust after the conclusion of each fiscal year, with transfer restrictions placed on the delivered shares until the Director resigns from all positions as Director - When the above transfer restrictions are lifted, for the purpose of funding tax payments, a number of the Company's shares corresponding to the remaining balance of points shall be liquidated in the trust, and a cash payment equivalent to the proceeds from the liquidation shall be disbursed
	Performance-linked portion	<ul style="list-style-type: none"> - A number of the Company's shares corresponding to a set ratio of points shall be delivered from the trust after the conclusion of the applicable period, with transfer restrictions placed on the delivered shares until the Director resigns from all positions as Director - When the above transfer restrictions are lifted, for the purpose of funding tax payments, a number of the Company's shares corresponding to the remaining balance of points shall be liquidated in the trust, and a cash payment equivalent to the proceeds from the liquidation shall be disbursed

(2) Trust period

Initial trust period will be approximately three (3) years, from August 2026 (scheduled) to August 2029 (scheduled). However, the trust period may be extended upon its expiration as described in (3) below.

(3) Upper limit of money contributed by the Company

The Company will set the upper limit on money in trust to be contributed for each applicable period for the acquisition of shares of the Company to be delivered, etc. to Eligible Directors as an amount calculated by multiplying 40 million yen by the number of years in the relevant applicable period (however, the initial applicable period will be the three fiscal years from the fiscal year ending March 31, 2027 to the fiscal year ending March 31, 2029, and the amount is set at 120 million yen). The Company will then contribute such money in trust and establish a trust (hereafter referred to as the "Trust") for the period corresponding to the applicable period, with Eligible Directors as beneficiaries. The Trust will acquire shares of the Company from the stock market or from the Company (through disposal of treasury shares), using money in trust as funding, and in accordance with the instructions of the trust administrator. During the applicable period, the Company will grant points to Eligible Directors (as described in (4) below), and if a relevant Eligible Director satisfies the beneficiary requirements, shares of the Company, etc. corresponding to the number of such points will be delivered, etc. from the Trust.

The Trust may be continued upon expiration of the trust period by amending the trust agreement and making an additional contribution to the Trust. In such cases, the fiscal years covered by the medium-term management plan set forth by the Company at that

time will become the new applicable period, and the trust period of the Trust will be extended for the number of years corresponding to such period. For each trust period extended in this manner, the Company will make additional contributions within the upper limit on money in trust to be contributed to the Trust approved by resolution of this General Meeting of Shareholders and continue to grant points to Eligible Directors during the extended trust period, and the Trust will continue to deliver, etc. shares of the Company, etc. However, when making such additional contributions, if there are any shares of the Company remaining in the trust assets on the last day of the trust period before it is extended (excluding shares of the Company corresponding to points granted to Eligible Directors for which delivery, etc. has yet to be completed) and any money (such shares and money are hereafter collectively referred to as “remaining shares, etc.”), the total amount of the remaining shares, etc. and the money in trust additionally contributed by the Company will be within the scope approved by resolution of this General Meeting of Shareholders. The trust period may be extended repeatedly in the same manner thereafter and is not limited to a single occasion.

In addition, if the trust agreement is not amended and no additional trust contribution is made upon expiration of the trust period (or, if the trust period has been extended as described above, upon expiration of the extended trust period) no new points will be granted to Eligible Directors thereafter. However, the trust period of the Trust may be extended for a certain consecutive period until the delivery, etc. of shares of the Company, etc. to Eligible Directors who may satisfy the beneficiary requirements is completed.

(4) Method for calculating, and upper limit on, the number of shares of the Company, etc. to be delivered, etc. to Eligible Directors

The number of shares of the Company, etc. to be delivered, etc. to Eligible Directors will be determined by the number of “fixed share delivery points by position” associated with the fixed portion by position and “performance-linked share delivery points” associated with the performance-linked portion.

i) Fixed portion by position

Each year during the applicable period, “fixed share delivery points by position” calculated using the below formula shall be granted to Eligible Directors.

Fixed share delivery points by position = standard amount of share-based remuneration by position × 30% ÷ the acquisition price of the Company’s shares within the Trust

ii) Performance-linked portion

Each year during the applicable period, “performance-linked basic points” calculated using the below formula shall be granted to Eligible Directors. Performance-linked basic points accumulate during the applicable period, and “performance-linked share delivery points” are calculated by multiplying the cumulative value of performance-linked basic points by the performance-linked coefficient. The performance-linked coefficient will vary within a range of 0% to 150% in accordance with such factors as the degree of achievements in performance under the medium-term management plan during the applicable period. For performance evaluation indicators in the initial applicable period, consolidated net sales, consolidated operating profit, and consolidated ROE, etc., will be used as financial indicators, and the engagement score and percentage of female managers, etc. will be used as non-financial indicators.

Performance-linked basic points = standard amount of share-based remuneration by position × 70% ÷ the acquisition price of the Company’s shares within the Trust

Performance-linked share delivery points = cumulative value of performance-linked basic

points during the applicable period × performance-linked coefficient

One point will equal one common share of the Company. If the shares of the Company held in the Trust during the trust period are subject to a share split, consolidation of shares, or similar event, the number of shares of the Company per point will be adjusted to reflect the split ratio, consolidation ratio, etc. of the shares of the Company.

The upper limit on the number of points granted to Eligible Directors during the trust period of the Trust will be the number of points calculated by multiplying 12,000 points by three (i.e., the number of years in the applicable period), and the upper limit on the number of shares of the Company, etc. of which Eligible Directors may receive delivery, etc. from the Trust during the trust period of the Trust will be the number of shares corresponding to such upper limit on points (hereafter referred to as the “upper limit on the number of shares delivered”). The upper limit on the number of shares delivered corresponding to the initial applicable period, which covers three fiscal years, will be a number of shares equivalent to 36,000 points.

If the Trust is continued as described in (3) above, the upper limit on the number of shares delivered during the extended trust period will be the number of shares corresponding to the number calculated by multiplying such upper limit per fiscal year by the number of years in the extended trust period. This upper limit on the number of shares delivered has been set with reference to the most recent share price, etc., taking into account the upper limit on money contributed by the Company described in (3) above.

(5) Method and timing of delivery, etc. of shares of the Company, etc. to Eligible Directors

Eligible Directors who satisfy the beneficiary requirements will receive delivery of shares of the Company (with shares less than one share unit rounded down), in a number corresponding to a certain percentage of the number of points calculated based on (4) above, at the times specified below, upon completion of the prescribed beneficiary vesting procedures.

- i) Fixed portion by position: After the end of each fiscal year
- ii) Performance-linked portion: After the end of the applicable period

Transfer restrictions will apply to the shares whenever so delivered until the recipient retires from all positions held as an Eligible Director.

Additionally, when the above transfer restrictions are lifted, for the purpose of funding tax payments, through a prescribed procedure for determining beneficiary rights, a number of the Company’s shares corresponding to the remaining balance of points shall be liquidated in the trust, and a cash payment equivalent to the proceeds from the liquidation shall be disbursed.

In principle, if an Eligible Director becomes a non-resident of Japan during the trust period, all shares of the Company corresponding to the cumulative number of points granted as of the time the Eligible Director becomes a non-resident of Japan will be converted into cash within the Trust, and the Eligible Director will be paid money in an amount equivalent to the proceeds from such conversion.

Also, in principle, if an Eligible Director dies during the trust period, all shares of the Company corresponding to the cumulative number of points granted as of the death of the Eligible Director will be converted into cash within the Trust, and the heir of the Eligible Director will be paid money in an amount equivalent to the proceeds from such conversion.

(6) Voting rights on shares of the Company within the Trust

Voting rights attached to shares of the Company held in the Trust will not be exercised during the trust period in order to ensure neutrality toward management.

(7) Handling of dividends on shares of the Company held in the Trust

Dividends on shares of the Company held in the Trust will be received by the Trust and applied to any trustee remuneration and trust expenses associated with the Trust.

(8) Other details of the Plan

Other details concerning the Plan will be determined by the Board of Directors when the Trust is established, and whenever the trust agreement is amended or an additional contribution is made to the Trust.

The Company also plans to introduce a share-based remuneration plan for the Company's engagement-type Executive Officers with the same details as the Plan, and the details of the trust agreement set forth above will also apply to engagement-type Executive Officers.
