

Outline

Company Name : Hakuto Co., Ltd.
Established : November, 1953
Paid-in Capital : 8,100,251,614 YEN
(As of the end of March, 2024)
Annual Sales : Consolidated 182,046Million YEN
(FY2023) Non-Consolidated 152,660Million YEN
Number of Employees Consolidated 1,203
(As of the end of March, 2024) Non-Consolidated 680
President & Chief Executive Officer : Tamaki Miyashita

Business Lines

1. Purchase or sale of the following products

■Import

Semiconductor Manufacturing Equipment, Vacuum Pumps and Vacuum Equipment, Electronic Components, Optical Instruments and Components, Scientific Instruments, Analytical Instruments, Equipment for Printed Circuit Board Test, Test and Measuring Instruments, Materials, etc.

■Export

Electronic Components, Equipment for Printed Circuit Board Manufacturing, Test and Measuring Instruments, Special Industrial Chemicals, etc.

2. Processing and manufacture, or sale of the following products

Equipment for Printed Circuit Board Manufacturing,
Special Industrial Chemicals

History

- 1953 Hakuto Co., Ltd. is established in Ginza, Chuo-ku, Tokyo, with capital of 5 million yen, and begins import and sale of rough crystals from Brazil.
1958 Begins import and sale of electronic measuring instruments.
1961 Osaka Liaison Office (present Kansai Branch) is opened.
1963 Hakuto Chemical Co., Ltd. is established for production and domestic sale of industrial chemicals, and provision of related engineering services.

Corporate Profile

Electronics

Chemicals

Hakuto Co.,Ltd.

Electronics & Chemicals for human

— will make your life more comfortable and the Earth more resourceful.

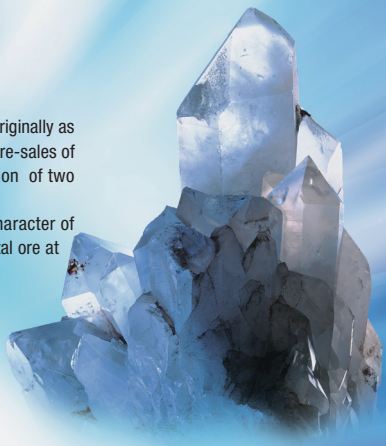

Hakuto is a trading company and manufacturer of electronics and chemical products.

Strength of Hakuto is created by a synergic effect of the two factors

— being a trading company and manufacturer. With its outstanding business maneuverability enjoyed only by an independently operated enterprise,

Hakuto is promised to expand its business in the industrial world in future.

Hakuto was founded in November 1953, originally as a trading company who deals import and re-sales of the crystal ore. Our name is a combination of two Chinese characters, "Haku" and "To". "Haku" comes from an initial Chinese character of Brazil, a major export country of the crystal ore at that time. "To" comes from an initial Chinese character of Tokyo.

Explore the next generation

Electronics related businesses

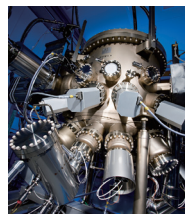

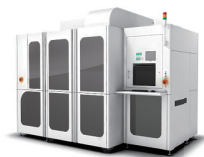

Our electronics related business is supported by three pillars which are; the electric equipment, electronic devices and electronic components.

Our sales staffs with superior technical knowledge continuously seek various quality products elsewhere in the world and resell them to both domestic and oversea customers. Although Hakuto is a trading company, we have many high level technical and engineering staffs and because of their continuous efforts, we have been fully supported by our customers in many respects while we are executing our company's "Customer First" policy. Hakuto, a company specialized in the area of electronics products, has been creating added values in our products and services which meet customers' needs.

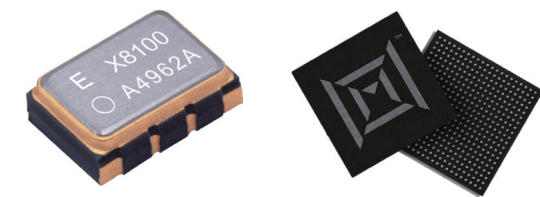

Electronics and electric equipment

Main products

- Compound semiconductor related equipment
- Nano technology equipment
- Vacuum, Analytical, Scientific Equipment
- Print circuit board related systems
- Laser Components & System

Electronic devices

Electronic components

Main products

- Connectors
- Display related parts
- Optical components
- RFID system
- Video Conferencing System

Chemicals related business

In our factory and research laboratory at Yokkaichi-shi, Mie prefecture, Japan, we research, develop and manufacture our industrial chemical products aimed at improving the production efficiency and environment safety in the petroleum, petro-chemicals, paper, pulp and automobile industries. At the research laboratory, we have been aggressively researching and developing various products for the next generation, such as cosmetic products which have been developed with our technology of Alcasealan. Our factory and research laboratory are aggressively challenging for the creation of new values.

Petroleum and petro-chemicals

- Corrosion inhibitors
- De-salt agent
- Polymerization inhibitors

Paper and pulp

- Defoamers
- Deposit control agent
- Felt Conditioner

Automobile

- Over-Sprayed Detackifier
- Paint Sludge Removal System

Others

- Cooling water processor
- Cosmetics (OEM sales, Own brand)

Global network

Our superior products we sell elsewhere in the world are distributed to our customers through our global network in the world market, especially in the Asian market, and such products have been supporting our customers' multiple businesses.
